Forensic Science, PG Diploma in Forensic Document Examination, PG Diploma in Fingerprint Science, and many more.

Vision

- / To fulfil the acute shortage of Forensic Experts in India & Abroad.
- / To make the World a Better and Safer place to live.
- / To carry out Research in the area of Forensic Science, Crime Investigation, Security, Behavioral Science, Criminology, Police Science & Law.

Mission

- / Education through Scientific & Technological Investigation
- / To impart High-Quality Education of International Standards
- / Training, Research and Extension in Forensic Science, Crime Investigation, Security, Behavioral Science, Criminology, Police Science & Law.

ABOUT THE INTERNATIONAL LECTURE SERIES

Forensic Science has a crucial role in criminal justice system. Crime prevention is a global issue and despite prodigious efforts by law enforcement agencies, there is a surge in crime statistics. Forensic experts assist in protecting and handling of the crime scene and in collecting the evidences of prime importance with the help of technology & scientific methods. This International Lecture Series on "**Recent Advancements in Forensic Science**" is designed to supplement latest developments and real time problems of criminal investigation amongst students, researchers, faculties, lawyers, judges, scientists and security personnel. The Lecture Series will be held on the 2nd Saturday of every month starting from 10th December, 2022 onwards. It will be a large compilation of knowledgeable lecture sessions from eminent resource persons across the world. This Lecture series will benefit the participants in enhancing their knowledge and skills related to forensic science and criminal justice system. It would also help in nourishing research ideas based on real time problems in students, faculties, scientists/forensic experts and budding researchers and personnel related to forensic science.

OBJECTIVES OF INTERNATIONAL LECTURE SERIES

The participants would be able to assimilate knowledge on real time challenges and gather research ideas to strengthen the field of forensic science.

To discuss recent advancements in forensic sciences.

To provide open discussion session for interchange of ideas and knowledge.

To present a global insight of the field of Forensic Science, its advancements in different parts of the world and challenges faced by the developing nations.

LEARNING OUTCOMES

The participants will learn the current trend in the field of forensic science.

Understand real time challenges faced by participants in dealing with interdisciplinary research.

Learn use of various techniques and application for enhancing research based knowledge.

To empower participants with enhancing knowledge of current research and development in science and technology.

WHO CAN ATTEND

Graduate or Post Graduate Students

Faculty/ Academicians

Research Scholars/ Post-Doctoral Fellow

Scientists/ Forensic Experts

Lawyers/ Judges
